

The North Carolina General Assembly has requested the Division of Aging and Adult Services (DAAS) to make recommendations for the criteria that should be used in conducting a comprehensive statewide study that examines the effect of an aging population in all 100 counties of the state.

In developing the recommendations, DAAS is to evaluate similar studies conducted by other states and the funding needed to complete these studies. DAAS is interested in recommending a study that would be comprehensive in nature—going beyond just the programs and services that it administers to look at other variables important to an aging population.

**To assist the NC Division of Aging and Adult Services in this task, please complete the following short survey and return it to [jwhaley@nasua.org](mailto:jwhaley@nasua.org)**

1. Has your State conducted a statewide aging study within the last 5 years?  
\_\_\_Yes \_\_\_No
2. IF YES:
  - a. Is a report of the study available online? \_\_\_Yes \_\_\_ No  
  
If yes, please give the web site:
  - b. Did the study include an assessment of the anticipated impact on programs and services that address the needs of an aging population? \_\_\_Yes \_\_\_No
  - c. Did it involve the identification of new programs and services that are needed to meet growth projections? \_\_\_Yes \_\_\_No
  - d. Did the study examine anticipated funding needs for programs and services serving the older adult population?. \_\_\_Yes \_\_\_No
  - e. Please describe the scope, methodology, and products of the study:
  - f. Indicate who actually conducted the study, at what cost, and the source(s) of funds used to pay for the study:

Please identify a contact person (with email and/or phone):
